*Details of instruments/facilities in Annexure-1*

**Detailed Rationale and key rating drivers**

*The rating is primarily constrained by weak financial risk profile marked by continuing losses, significant amount of contingent liabilities, stretched liquidity position coupled with subdued demand scenario in the real estate industry.*

*The rating, however, draw comfort from experienced promoters, long track record of operations and established brand in the National Capital Region (NCR).*

**Key Rating Sensitivity**

**Positive Factors**

- Improvement in the financial performance with profits at PAT level as well as positive net worth.
- Ability to meet debt servicing obligations without reliance on refinancing of bank loans.

**Negative Factors**

- Lower than envisaged financial support from Emaar group.
- Continued losses at PAT level combined with negative net worth.
- Continued dependence on refinancing for meeting debt service obligations.

**Detailed description of the key rating drivers**

**Key Rating Weaknesses**

***Subdued financial performance***

The overall financial risk profile of EIL continues to remain weak, mainly on account of elevated debt levels, negative networth and continuous post-tax losses. During FY20, the company incurred total loss of Rs. 136 Cr (FY19: Rs.394 Cr). The losses were mainly due to cost-overrun in the earlier projects along with delayed compensation being paid to customer along with high interest cost due to elevated debt levels. Further, as on March 31, 2020, the capital structure of group is marked by negative net-worth of Rs. 3088.77 Cr and high debt of Rs. 6,496 Cr. The negative net-worth of is mainly on account of reversal of capital reserves as an effect of demerger of Rs 2,648 crore, reduction of retained earnings due to applicability of IndAS-115 by Rs. 1,440 Cr and continued losses incurred during the year FY20 of Rs. 136 Cr. However, comfort is derived from the fact that majority of debt in EIL is backed by SBLC/ corporate guarantee of Emaar Properties PJSC, Dubai.

***Significant amount of contingent liabilities***

The company is exposed to significant amount of contingent liabilities on account of multiple on-going litigations. Prominent of these matters include FEMA contravention involving an amount of Rs.8,600 cr, disputes with Andhra Pradesh Industrial Infrastructure Corporation (APIIC), Delhi Development Authority (DDA) as well

**CARE Ratings Ltd.**

as Ahluwalia Contractors (India) Ltd. Any unfavourable outcome on these contingent will further impact the financial risk profile adversely.

**Liquidity: Stretched**

EIL has committed receivables (excluding unsold inventory) of Rs. 1,473 cr as on Dec 31, 2020 as against pending cost of Rs. 1,828 cr to be incurred towards project completions along with outstanding debt of Rs.6496cr as on March 31, 2020. Apart from this the company NCD are due for repayment in May'2022 along with the deferred interest since FY14, thereby necessitating the need for compulsory refinancing of these NCD's. Further the company has other borrowing from bank/FI, with repayment of Rs.694cr due in FY21 as compared to collection of Rs.563cr during 9MFY21, thereby further requiring continued refinancing of other liabilities and reliance on the support from parent company to manage the liquidity position. The average working capital utilization stood at 71% during past 11 month period ended Nov-20. The company has not availed the moratorium offered by the banks in line with the RBI guidelines in wake of Covid-19 pandemic. The Company has received approval from the debenture holders wherein interest payment (coupon) due from October 01, 2014 to May 20, 2022 will be paid on May 20, 2022. The NCD has been subscribed by Emaar Dubai and the same have been rolled over on earlier due date of Dec 31, 2019 to May 20, 2022.

**Subdued demand scenario in real estate industry**

With the on-going economic conditions, the real estate industry is currently facing issues on many fronts, including subdued demand, curtailed funding options, rising costs, restricted supply due to delays in approvals, etc. thereby resulting in stress on cash flows of developers. The industry has seen low demand in the recent past, primarily due to factors like sustained high level of inflation leading to high interest rates and adverse impact on the buying power and affordability for the consumers. Further, onset of Covid-19 pandemic also affected the purchasing power of the consumers. The industry also faces the risk of homebuyers approaching National Company Law Tribunal (NCLT), as has been the situation with EIL in the past, when the NCLT admitted a petition against EIL (erstwhile EMLL) from a homebuyer seeking a refund along with interest for delays in delivery of booked unit. However, the insolvency proceedings have been set aside post the Supreme Court of India's judgement in March 2019. Further, with the Supreme Court judgement dated 9 August 2019 and the amendment to the Insolvency and Bankruptcy code in Dec'19 (requiring minimum of 100 home buyers or 10% of allottees to approach the NCLT against any company), provides further safeguards to builders, which make it difficult for speculative homebuyers to initiate insolvency proceedings against errant builders.

**Key Rating Strengths**

**Increase in shareholding of Emaar Properties PJSC, leading to improved operational performance**

Post demerger of EIL with MGF group effected in FY19, the Emaar group has increased its stake in EIL by converting its CCDs of Rs.250 Cr into equity shares thereby increasing its stake to 70.12% as on March 31, 2020. Further in FY20, Emaar PJSC has infused Rs.400 Cr in the form of NCDs. Emaar group is gradually increasing its stake in EIL as it has been further increased to 77% as on September 30, 2020. Therefore, the company is now being managed by Emaar group only.

EIL's board is controlled by Emaar and the latter monitors EIL's overall treasury and operations on an ongoing basis. As per Emaar's 3Q20 investor presentation, EIL accounts around 27% of the gross asset book value and around 21% of the gross asset fair value of Emaar.

Post the take-over of operations by Emaar group, the project progress has also been satisfactory. This is reflected by the fact that the ongoing 53 projects of the company are now at an advanced stage of execution with about 87% of the total saleable area already being sold till Dec 31, 2020 for total sale value of Rs.17,571 Cr. Out of the total sale value, ~92% of the amount has already been realized and remaining Rs.1,473 Cr stood as advance receivables as on Dec 31, 2020. Furthermore, during the last 12 months ended Dec 2020, the company has been able to maintain healthy momentum of collections of Rs.68.24 Cr per month on an average.

**Strong promoter group with vast experience in real estate sector**

Emaar Properties PJSC has formally taken over control of the management of the company on May 23, 2016, and henceforth, playing an active role in the decisions of the company. Post demerger effected in FY19, the stake

of Emaar group has increased to 77% as on September 30, 2020. Mr Jamal Majed Khalfan Bin Theniyah is Chairman of Emaar Properties PJSC.

Promoted by Government of Dubai, Emaar PJSC is a public limited company and has presence in hospitality, education, healthcare and finance with operations in 14 countries. It has developed approximately 1330 million square feet of real estate across residential, commercial and other segments. The parent company has extended support to EIL and in the past, EIL has raised funds secured by the SBLC and letter of guarantee from Emaar PJSC, Dubai for the purpose of expediting their current projects under construction, replace some of its existing high cost borrowings, clear vendor/contractor and EDC/IDC (External Development Charges/ Internal Development Charges) dues etc.

**Analytical approach:** Consolidated

CARE has taken consolidated approach for the ratings of EIL. The group along with its subsidiaries and joint ventures is engaged in the business of real estate development including residential and commercial projects and is controlled and managed by common management, the details of which is attached as **Annexure A**.

**About the Company**

Emaar India Limited (erstwhile Emaar MGF Land Limited) was incorporated in 2005 as a joint venture between Dubai-based Emaar Properties PJSC (Emaar PJSC) and MGF Group (MGF), India. Later pursuant to the demerger of the group, the Emaar group now holds 77% in the EIL.

Promoted by Government of Dubai, Emaar PJSC is a public limited company listed in Dubai and has presence in hospitality, education, healthcare & finance with operations in 14 countries. EIL is focusing on the development of residential projects in Gurugram, Haryana and elsewhere in Delhi/NCR, Mohali, Chennai and other key Indian cities. The Company is presently developing 53 projects with most of the projects being at advanced stage of execution. Most of these projects are in various stages of development and are proposed to be completed in phases over the next 18 to 24 months.

EIL is a real estate developer with pan-India presence (major focus being in Northern India, especially NCR) and operations spanning across residential, commercial, retail and hospitality sectors.

### About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

### Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

**CARE Ratings Ltd.**

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
